## **Permanent Anti-Stain Coating** (Oil and Water Repellent Anti-Graffiti Coating for Glass Surfaces)

### Product Description

ISTN's Anti-Stain Coating is a permanent oleophobic and hydrophobic coating designed to reduce the buildup of contaminants on treated glass surfaces. After the curing process, this functional coating is less than twenty nanometers thick and is invisible to naked eyes. With its superior oil and water repellent properties, stains such as permanent markers, fingerprints, lime scale, soap scum, and salt residue can be cleaned off with ease and without the need of harsh cleaning chemicals.

### Product Features

- **Permanent Invisible Anti-Stain Coating Treatment** for Glass Surfaces
- **Easy-to-Clean** without the need of Harsh Cleaning Chemicals
- **Maintain Like-New Appearance** of Treated Glass Surfaces
- **High Surface Contact Angle** allows Water to Bead and Wash Away Contaminants
- **Simple Application Methods and Curing Processes** for Maximum Processing Yields

### Product Applications

- **EXTERIOR/OUTDOOR**
  - Solar Panel Covers
  - Architectural/Building Windows
  - Storefront Windows
  - Advertisement Signage
  - Outdoor Displays
  - Glass Fence
  - Glass Roof/Greenhouse
  - Sunrooms
- **INTERIOR**
  - Dining and Coffee Tables
  - Interior Design of Stores and Restaurants
  - Showroom and Tradeshow Displays
  - Bathroom Shower Screen
  - Kitchen Cabinets and Appliances
- **SPECIALIZED APPLICATIONS**
  - Marine Applications
  - Aerospace Applications
